

E-T-A Appoints Utech Electronics as National Distributor

Richmond Hill ON, January 2012 – E-T-A Circuit Breakers is pleased to announce that it has signed Utech Electronics as a national distributor. E-T-A is constantly adapting its distribution model to reflect the changing realities of distribution in Canada. The company continues to align itself with distributors whom have individual strengths and capabilities in specific industry categories and regions. This focus provides a better partnership building business for both parties with a common goal of growth in a wide variety of sectors. Our Certified Distributor Program allows the Utech team to become an extension of E-T-A providing more value to the customer with intensive technical training and unlimited access to the E-T-A customer support system. Utech was created in 1991 specializing in surface mount technology and has steadily grown to a national distributor that services a wide range of OEMs. They utilize a quality management system that allows them to provide a high level of customer satisfaction. They represent world-class manufacturers, providing components from stock at competitive prices always delivered on time. As the world's leading circuit protection company, E-T-A is looking forward to working with Utech and their customers to bring them the most complete line of global circuit protection solutions.
